EXECUTIVE SUMMARY

1. Urban Water Supply and Sanitation (Sector) Project (UWSSP) is supporting Nepal in expanding access to community-managed water supply and sanitation (WSS) in 21 project municipalities by drawing on experiences and lessons from three earlier projects funded by the Asian Development Bank (ADB). The project is financing climate resilient and inclusive WSS infrastructure in project municipalities and strengthen institutional and community capacity, sustainable service delivery, and project development. It is being implemented by Project Management Office Kathmandu under the Department of Water Supply and Sewerage Management, who will address any resettlement impacts, permanent or temporary, during project implementation.

2. This semi-annual report presents the Social Safeguards Planning Documents; Resettlement Plan (RP)/ DDR implementation status from January to June 2023. The overall project is classified as Category B for Social Safeguards on involuntary resettlement and indigenous peoples in accordance with ADB Safeguard Policy Statement (SPS) 2009.

3. 24 subprojects are under implementation in three geographic regions of Nepal under UWSSP. No land acquisition is required in 22 subprojects for which Due Diligence Reports (DDRs) were prepared. Two Resettlement Plans were prepared for two subprojects having resettlement impacts. Firstly, in Siddhanath-Baijanath subproject, public land of Shivalaya temple is used for RVT construction and one community shade with CGI roofing shifted to a new location. Similarly, in Shubhaghata subproject, compensation includes compensation for permanent loss of agriculture land, compensation for crop loss, income restoration and permanent loss of agriculture-based livelihood. And one IPP was prepared for Ilam Urban Water Supply and Sanitation Subproject. Measures to avoid and minimize private land acquisition and involuntary resettlement impacts were adopted. No significant livelihood and income related impacts are identified. Adequate vacant government land is available at each project site. Temporary impact to residents and pedestrians due to pipe laying work is avoided by good traffic management plan. Efforts are continuing to avoid adverse impact.

A total of 50 major consultative/orientation/training/meetings were held in the community to disseminate project information and project during this reporting period. The meeting covered issues of community participation and other project related activities. The regular meeting with sub projects town community members and stakeholders is continuous. Grievance Redress Committees have been formed in all 24 subprojects.

4. The GRCs have been addressing grievance recorded during implementation of subprojects. During this reporting period of January to June 2023, 24 cases of grievances (verbally or registered) have been filed in subprojects. Out of 24, 23 grievances are resolved by field level GRCs one in Bhojpur DEWATS project is inprocess condition.

5. The Project Management Office (PMO) and two Regional Project Management Offices (RPMO) have set up institutional requirements for the implementation of the Resettlement Plan.

6. All the 24 subprojects are being monitored regularly in terms of social safeguard and resettlement perspective. Most of the water supply structures are built either on public land or land already owned by concerned WUSCs. The issues of temporary affected persons during implementation (digging of trench for pipeline) are being dealt with as per GRM and RF.

7. Follow up Actions and Recommendations

- Again, this year the effects of Dengue have been seen in many places in Nepal. Therefore, it is necessary to inform the employees and workers working in the field about the measures to be taken to avoid this. There should also be an effective system for regular monitoring of these growing epidemics.
- Training and awareness to Social Mobiliser supply of required PPE and logistic shall be provided to safeguard desk in each subproject with the help of WUSC.
- Assess the need for an additional awareness program on grievance redress mechanism and carry out the necessary awareness programs among the community people/stakeholders in sub-project implementation locations.

List for the follow up action for next reporting period:

1. OHT 900 cum construction site issue at Saptakoshi has been solved and work has been started at this site. The land ownership will be transferred to WUSC within September 16,2023 (Bhadra 30 2080).

1. BACKGROUND OF THE REPORT AND PROJECT DESCRIPTION

8. Urban Water Supply and Sanitation (Sector) Project (the project) is supporting the Government of Nepal in providing water supply and sanitation (WSS) services to selected 21 project municipalities in Nepal. Total project cost is USD 178.50 million where Asian Development Bank is financing USD 130 million. As a counterpart Government of Nepal is investing USD 39.50 million and Beneficiaries (municipalities and water user's associations) is also financing USD 9.0 million during the construction. The ADB loan has been revised to 100 million USD in November 2022. The project is financed climate-resilient and inclusive water supply and sanitation infrastructure in project municipalities and strengthen institutional and community capacity, sustainable service delivery, and project development. UWSSP ensures both in terms of quantity and quality of drinking water and sanitation as well as Gender Equity and Social Inclusion (GESI), social and environmental aspects. The project became effective implementation from 11 January 2019, and the closing date is 30 April 2024.

Table 1: Important Milestones

S.N	Description	Date	Remarks
1	Loan Approval by ADB board	26-Sep-18	
2	Loan Signing date	26-Nov-18	
3	Loan Effective	11-Jan-19	
4	Project Completion	31-Oct-23	
5	Final Loan Closing	30-Apr-24	
6	Elapsed time from Loan approval	85.07 %	Till June 2023
7	Cumulative progress	83.653%	Till June 2023

9. The executing agency of the Urban Water Supply and Sanitation Project (UWSSP) is the Ministry of Water Supply (MOWS). The Project Management Office (PMO), under the Department of Water Supply and Sewerage management (DWSSM) is implementing the project. For effective monitoring, two Regional Project Management Offices (RPMOs) one in Eastern Region at Itahari and other in Western Region in Nepalganj is established and all the project design, supervision & monitoring activities of each town sub-projects are being implemented. Three Regional Design, Supervision and Management Consultants (RDSMCs) of Western, Eastern and Central region have been hired for project design, supervision and management purposes stationed at Nepalganj, Itahari and Kathmandu respectively with designated inputs of Social Safeguard Specialist for the monitoring and implementation of Social Safeguard activities in the respective sub projects. The Project Management and Quality Assurance Consultant (PMQAC) had been mobilized from 01 July 2019 and is working under the PMO office in central & providing support to the PMO and RPMOs.

1.1 Goal and Objectives of the Project

10. The objectives of the project are:

- To support Nepal in expanding access to community-managed water supply and sanitation (WSS) in 21 project municipalities by drawing on experiences and lessons from three earlier projects funded by the Asian Development Bank (ADB).and
- To finance in climate resilient and inclusive WSS infrastructure project municipalities and strengthen institutional and community capacity, sustainable service delivery, and project development.

1.2 Project Impact and Outcome

11. The project is aligned with the following impact: quality of life for urban population, including the poor and marginalized, improved through the provision of sustainable WSS services. The project will have the following outcome: inclusive and sustainable access to

WSS services in project municipalities achieved. It has 2 major outputs as envisaged by the project. The first output is improved water supply and sanitation infrastructure, second is strengthened institutional and community capacities.

12. Till this reporting period a total of 24 projects have been awarded the contract on different dates. Thus, significant physical as well as financial progress has been achieved to date.

1.3 Key Sub Project Components Works

13. The project infrastructures are intakes, deep well borings, overhead reservoir tanks, sump wells, collection wells, ground reservoir tanks, transmission and distribution pipelines, water treatment plants, office buildings, tube wells, public toilets, electrical and electro-mechanical works (SCADA) including other associated works.

1.4 Reporting Period

14. This semi-annual social safeguard monitoring report includes the status of safeguard implementation activities in three regions, 21 projects Municipalities under UWSSP covering the period of January to June 2023.

2. SCOPE OF THIS REPORT

15. The scope of this social safeguard semi-annual monitoring report is to assess the progress on social safeguard implementation during the period of January to June 2023. The main objective of the report is to implement the social safeguards measures agreed in the due diligence reports, resettlement plans, indigenous peoples plan, and any measures identified and recommended during project implementation as reported in previous SSMRs in compliance with the ADB SPS 2009. During the project design phase, agreements and mutual understandings were made in intake site, pipeline alignment and construction site of project related structures. The monitoring report describes the findings of implementing safeguard measures. The report assesses the implementation of the following issues.

- Compensation payment,
- Replacement of affected structures and rehabilitation,
- Restoration of public infrastructures,
- Review of the consultation and disclosure processes, describe the subproject's grievance redress mechanism for resolving complaints,
- Restoration of livelihood of the affected persons/households,
- Based on the Resettlement Framework (RF), all land acquisition and resettlement activities to be completed before commencement of civil works. However, income restoration measures and deed transfer are continued during ongoing civil works.

3. APPROACH AND METHODOLOGY OF SOCIAL SAFEGUARD MONITOING REPORT

16. DSMCs prepare monthly, quarterly, and semi-annual progress reports for each town project. Resettlement activities of the projects are incorporated in the reports submitted to each RPMO. RPMO with assistant from DSMC specialist consolidate their reports into semi-annual monitoring report and submit to PMO. PMO with assistant from PMQAC social safeguards specialists consolidate their reports into semi-annual monitoring report and submit to ADB. This report describes the progress of the implementation of resettlement and indigenous peoples' activities, grievance redress mechanism, compliance issues and corrective actions. Any problems or issues identified will be followed-up (including recommendation of mitigation measures and supplementary budget); and learning from such issues will be recorded which will help to deal with issues in future.

4. MONITORING RESULTS AND FINDINGS

17. The regular monitoring of safeguards measures depicted in resettlement plans, DDRs and Indigenous Peoples Plan, during project implementation period is continued in this monitoring period. All ongoing construction subprojects were monitored by the safeguard team and valuable suggestions and needful advice were shared to WUSC and project stakeholders. The safeguard team is closely working with the construction team to avoid adverse impacts. Water Users and Sanitation Committees (WUSCs) are actively facilitating to coordinate the construction team and local people during civil work. The monitoring works were undertaken by using specific format and documents for assessment and evaluation. Prior to the commencement of the construction work the safeguard team actively participates in field work for site possession. Information is provided to all local level users and villagers on construction being started and facilitated contractor for clearing the site.

18. The team has reviewed existing documents / literature, RP, DDR, IPP, RRP, PAM, and Loan Agreement doc, etc. for gaining in-depth information and knowledge prior to preparation of QPR/Semi-annual report, Inception Report and others required deliveries according to the ToR. Some of the recommendations need to be furnished or effective implementation of the required activities as well as safeguard activities in respective project municipality.

4.1 PROGRESS STATUS OF SOCIAL SAFEGUARD ACTIVITIES

19. Up to this reporting period, 22 Due Diligence Reports and two Resettlement Plans have been prepared and approved by ADB. The DDR for enhancement project of eastern region has also been submitted to ADB.

20. In the awarded 24 subprojects being implemented in eastern, central, and western regions, there is no displacement of people and adverse impact on indigenous people. However, during the construction phase, there were temporary inconveniences such as increased vehicle movements and noise that affect the pedestrians and residents of the immediate vicinity of the site. The minimal impacts were observed along the right of way of roads where new pipes were installed. Remedial measures were taken to have proper movement of traffic and easy access for pedestrians. Any safeguard issues identified during sub project implementation are incorporated in QPR, SSMR and update of the DDRs or Resettlement Plans, as required. The status of DDRs and RPs are described in detail in **Table 2**.

21. This report covers the information regarding social safeguard and resettlement issues of 24 subprojects under construction phase. Among them, 22 Land Acquisition and Involuntary Resettlement Due Diligence Reports (DDRs), one Indigenous People's Plan and two Resettlement Plans were prepared.

22. Two Resettlement Plans that was prepared for two subprojects having resettlement impacts which includes i) Public land of Shivalaya temple is used for RVT construction) and one community shade with CGI roofing shifted to a new location in Siddhanath-Baijanath subproject. ii) In Shubhaghat subproject, compensation includes compensation for permanent loss of agriculture land, compensation for crop loss, income restoration and permanent loss of agriculture-based livelihood. All the compensation-related activities have already been completed. Out of 24 sub-projects, one SCADA supply and installation has been contracted of which 13 are in the implementation stage and 12 are in the O & M stage. Of the 12, six have already entered into "Defect Liability Period (DLP)". Table 3 and Table 4 below shows that summary of project activities and identified project impacts.

4.2 Compensation

23. All the compensation-related activities have already been completed. The Siddhanath-Baijanath project was handed over to WUSC (3 January 2023) and Shubhaghata entered the second phase of the construction.

4.3 PUBLIC PARTICIPATION AND CONSULTATION/MEETING AND TRAININGS

4.3.1. Consultations

24. Consultations were carried out with local people, organizations, and other stakeholders during the implementation phase. Regular public consultation and meeting is a high priority of the joint project team of ICG, DSMC, Contractor and WUSC of the respective sub-projects at the project areas. The field teams of the projects have made various consultations and meetings at local level in ongoing subprojects. Following COVID -19 safety measures: interactions and communication with community people, local organizations and other stakeholders were carried out at the implementation sites. During project preparation, feasibility study, detail design and implementation phase; team leader of RDSCMC, Social Safeguard Specialist and GESI Specialist of RDSCMC visited the project municipalities several times and consulted with the community people, local organizations, and other stakeholders. Local representatives of political parties, schoolteachers, businesspersons, women, representative from Indigenous people and vulnerable groups were contacted in different project locations for consultation and disclosures about the project, its impacts, and measures to be adopted for mitigating the negative impacts. Queries raised by the communities including indigenous people regarding the project, its activities and impacts were well addressed. In implementing all subprojects, interaction and meeting was continued by the PMO representatives, project consultant team, WUSCs and contractors in the project sites. Another part of the disclosure was to answer questions raised by the communities including affected persons regarding the project, its activities and impacts. The consulted people were informed about different aspects of the projects and likely resettlement impacts and mitigation measures. They were also informed about the (i) process of assessing resettlement impacts during feasibility and detail design, (ii) process of compensation determination in accordance with the Land Acquisition Act 1977 and provisions of compensation.

4.3.2. Western Region:

25. Regular field visits to construction sites and interaction with community people were carried out to assess and monitor the social issues. The summary of orientation/consultation meetings/training conducted so far during this semi-annual period (January to June 2023) is summarized in Annex-2.

4.3.3. Eastern Region:

26. During the reporting period (January to June 2023) the RPMO and ERDSCMC team visited for consultation and coordination with Mayor of Ilam, Jhumka, Kanchanrup and Katahara Municipality and WUSC officials. During the visit the RPMO chief and ERDSCMC Team discussed with the Mayor of Katahara Municipality about outfall, pipeline route, Right of Way of existing road and local issues.

4.3.4. Central Region:

27. From January to June 2023, Social, Environmental safeguard and GESI Specialist from PMQAC visited the Panchkhal, Dadhikot, Charikot DEWATS and Danchi sub projects and discussions/ interactions with the project team. Meeting with WUSC chairman and contractor's representative's site manager was done with site observation of the project. The meeting has focussed on safeguards friendly construction activities and their cooperation for timely completion of works. The overall safeguards status (environmental and social) was

found satisfactory, and feedback provided for regular monitoring and reporting of compliances activities. From January to June 2023, total 374 (Male 235, Female 139) participants were participated in the major formal meetings/consultations in Panchkhal UWSSP. In Dadhikot UWSSP, there were 443 (Male 259, Female 184) participants attended the major meeting/consultations. In Chariot DEWAT, a total 251 participants attended in the meeting/consultations of which 193 males and 58 females. Likewise, 221 participants (Male 183, Female 38) were participated in the meeting/consultations in Danchhi Kageshwori Manohara UWSSP.

28.

4.3.5. Project Orientation/Consultations:

29. In this SSMR period, orientation/consultations were carried out in 15 urban sub projects including 4 DEWATS/SD projects (Ilam, Katahariya SD, Kanchanrup, Jhumka, Saptakoshi, Bhojpur DEWATS, Charikot WSS, Charikot DEWATS, Dadhikot, Panchakhal, Sharadanagar, Khalanga, Tikapur SD, Gorusinghe and Purnagiri UWSSP) with maintaining social distance. In this period, total 1,401, Male: 1280(91.36%) and Female: 121 (8.61%) were participated in the orientation/consultation meeting. The summary of the meeting and minutes of the meeting has been attached in **Annex 2**.

4.3.6. Public Awareness Campaign:

30. The School WASH orientation program for 2 public schools (primary and secondary) is proposed for all the urban sub projects in eastern, central, and western regions. The orientation program has been conducted in 22 urban projects (Ilam, Bhojpur, Khotang, Katahariya SD, Kanchanrup, Jhumka, Saptakoshi, Sharadanagar, Charikot, Deurali Hupsikot, Dadhikot, Panchakhal, Liwang, Pragatinagar, Siddhanath Baijanath, Subhaghpat, Khalanga, Chainpur, Tikapur SD, Gorusinghe and Purnagiri and Danchi). Sufficient information on girls' menstrual hygiene, WASH, personal hygiene, behavioral change, sanitation, and practice of WASH in school etc were disseminated. During this quarter, the orientation programs were conducted in Danchi and Saptakoshi sub projects in eastern and central region.

31. Altogether, 2,284 students including 304 (13.31%) boys and 1,980 (86.69%) girls participated in the orientation program.

4.3.7. Orientation on CLS and OHS to Contractor/Labors

32. The main contents of the orientations are national CLS, gender equality in wages, gender-based violence (including sexual exploitation and human trafficking) & occupational health and safety standards.

33. In 23 urban sub projects (Ilam, Bhojpur, Diktel, Jhumka, Kanchanrup, Katahariya DEWATS, Bhojpur DEWATS, Charikot, Panchkhal, Hupsekot, Dadhikot, Liwang, Pragatinagar, Sharadanagar, Khalanga, Siddhanatha Baijanath, Shubhaghpat, Chainpur, Charikot DEWATS, Tikapur SD, Gorusinghe and Purnagiri) already 23 formal orientations have been conducted on CLS and OHS. Orientation to laborers on covid-19 and safety to follow has been done before working at the site. Personal safety and rules to be followed while working together were also briefed to workers. In this quarter orientation of CLS/OHS has been conducted in Saptakoshi WSS in the eastern region. Only the, Danchhi sub project is remains for the training.

4.3.8 Project and Contract Management Training:

34. A project and contract management training to CSE, contractor's representative, ICG and staff of central region design supervision and management consultants was organized from 13-15 March 2023 in Kathmandu. The training was facilitated by PMO/PMQAC and DSMC. Participants from Charikot, Panchkhal, Dadhikot, Daanchhi, Saradanagar, Hupsekot and SCADA projects took part in the training. The number of participants was 40 men and women. The name list and photographs are attached in **Annex 3**.

5 GRIEVANCE REDRESS MECHANISM

35. In line with the Project Administration Manual of UWSSP, a first level Grievance Redress Committees was formed in each subproject. The third level (project level) GRC was formed under the Project Director of UWSSP on 6th Feb 2020. The concern DPD, Social and Environment Safeguard officers from PMO and PMQAC environment & social safeguard experts and NEFIN representative as members. Accordingly, all 19 under construction urban subprojects have formed first and second level of Grievances Redress Committees in Ilam, Bhojpur, Diktel, Jhumka, Saptakoshi, Kanchanrup, Liwang, Siddhnath Baijanath, Pargatinagar, Chainpur, Shubhaghat, Gorusinge, Purnagiri, Charikot, Panchkhal, Deurali – Hupsekot, Sharadanagar, Dadhikot WSSP. Four contracts awarded SWDP and FSTP subprojects were formed municipality and center (Two) level of GRC. The FSTP and SWDP have no user committee. The list of the GRC Committee is attached in **Annex-4**.

5.1 Record Keeping and Disclosure

36. Records at subprojects are kept by the concerned WUSC Member Secretary of all grievances received including contact details of complainant, date the complaint received, nature of grievance, agreed corrective actions and the date of the incident and outcome. The number of grievances recorded, resolved and the outcomes are being displayed/disclosed in the PMO and WUSC/municipal/rural municipal office. In addition, it is also reported in the safeguards monitoring reports to be submitted in ADB on a semi-annual basis.

37. The grievance recording system has been initiated in the entire project sites. A standard and uniform template for registration and processing was forwarded to all project sites addressing the safeguard focal person. The summary with matrix of grievances/incidents, including the dates nature of complaints/problems, and how these were resolved (either resolved on-site or through the GRC) are included in this SSMR. A notice board of GRC committee with the name list is also displayed at the Office of ICG/ WUSC/ Ward Office of all Sub-projects. During the monitoring period 24 grievances were recorded for the month of January to June 2023 as illustrated in the **Annex 6**.

5.2 Status of Construction Activities after Agreement Reached with complainants in Makaibari in Charikot

Issues Raised by Makaibari Struggle Group:

38. It has been resolved and construction related works have been completed and the project running on O&M phase of construction.

5.3 Site finalization at Jutepani, Phattepur location for OHT-900Cum, Saptakoshi

UWSSP:

39. Site has been finalized at Jutepani, Phattepur, Saptakoshi Municipality and transferring the ownership of land to the WUSC is in the process. Construction has been started at the finalized site. WUSC has made a commitment to transfer ownership prior to Bhadra 30, 2080.

5.4 STATUS OF IMPLEMENTATION OF INDIGENOUS PEOPLE PLAN (IPP) IN ILAM SUBPROJECT

40. Ilam urban subproject is the only one Subproject to prepare Indigenous Peoples Plan (IPP) in whole urban project. According to the action plan, the livelihood enhancement training for IP community in Sandakpur Maimajuwa source area, out of 5 categories of training heading two items i.e. sewing netting and cow farming has been completed among 38 participants.

41. As per the previous action plan/three headings selected from TNA were left. After completion of two nos of Livelihood Training, community people interested in motor driving (four-wheeler vehicle) training in this year 2023. In lieu of all these remaining heading the project team had planned four-wheeler driving training for 18 people of source area and pipeline route. The driving training course was completed with 18 individual participants. The training was participated by 15 men and 3 women. As per the project IPP the livelihood Enhancement Support Programme has been completed.

42. The observed benefit sharing and implementation of IPP carried out till date are as follows:

- The IPP workshop concluded on 26 December 2020 and decided for 5 catagories of Livelihood Enhancement Training to IP people.
- Public toilet in Budhaware Hat (market) area: Construction work of public toilet has been completed and handed over to community.
- For the fulfillment of Indigenous people development plan livelihood enhancement training of Ilam UWSSP in Sandakpur -2 Tailoring and Animal husbandry (cow) training has been completed.
- The training certificate and equipment/seweing machine were distributed by the Member of Parliament, Chairperson of Sandakpur Rural Municipality, Ilam UWSSP WUSC chairperson and ward chairperson of Sandakpur Rural Municipality.
- Motor Driving training was conducted from 10 June 2023 to 2 July 2023 (21 Days). The formal opening ceremony was conducted in Sandakpur- 2 in 13 June 2023 and inaugurated by Sandakpur Rural Municipality chairperson Mr Tula Ram Gurung in the presence of Ilam WUSC and ERDSMC team. A total 18 (15 males and 3 females) participated in the Driving Training.
- Employment generated: 20,819 person days of local people (Indigenous people) were employed in the source/Transmission area for the construction works. In return they receive financial benefit due to employment opportunities of- $20,819 \times 700 =$ Rs14,573,300 till the reporting period.
- Two Social Mobilizers have been inducted from 15 December 2019 to accelerate the IPP activities. One social mobilizer has been fielded to the source area to carry out the IPP related activities and another social mobilizer has been engaged to carry out social activities in the project service area. The social mobilizers are actively involved in field survey for identification and selection of eligible household for OBA, grievance handling, awareness generation, TNA/IPP related activities as illustrated by the photographs below.

6. SAFEGUARDS LOAN COVENANTS

S.N.	Loan Covenants	Status of Compliance Date: Up to June 2023
A.	Procurement	
<i>Loan Agreement (LA) SCHEQUE 5, Para 5</i>	The Borrower shall ensure that construction works under the Project do not involve significant adverse environmental, involuntary resettlement and indigenous peoples impacts which may be classified as category A under the SPS or its related rules/manuals	Complied and being followed in IEE, EMP, EARF, RP and IPP. All incorporated in DPR
B.	Land Acquisition and Involuntary Resettlement	
<i>Loan Agreement (LA) SCHEQUE 4, Para 7</i>	<p>The Borrower shall ensure that all land and all rights-of-way required for the Project, each Subproject and all Project facilities are made available to the Works contractor in accordance with the schedule agreed under the related Works contract and all land acquisition and resettlement activities are implemented in compliance with</p> <ul style="list-style-type: none"> a) All applicable laws and regulations of the Borrower relating to land acquisition and involuntary resettlement; b) The Involuntary Resettlement Safeguards; c) The RF; and d) All measures and requirements set forth in the respective RP, and any corrective or preventative actions set forth in the Safeguards Monitoring Report. 	Being Compiled.
C.	Monitoring Report	
<i>Loan Agreement (LA) SCHEQUE4, Para 8</i>	The Borrower shall ensure that the Involuntary Resettlement Safeguards and the RF are followed in any involuntary or voluntary land acquisitions or government land clearing activities in preparation for the future subproject or any component of such future subproject.	Being complied. No involuntary or voluntary land acquisitions and displacements.
<i>Loan Agreement (LA) SCHEQUE4, Para 9</i>	<p>Without limiting the application of the Involuntary Resettlement Safeguards, the RF or the RP, the Borrower shall ensure that no physical or economic displacement takes place in connection with a Subproject until:</p> <ul style="list-style-type: none"> a) Compensation and other entitlements have been provided to affected people in accordance with the RP; and, b) A comprehensive income and livelihood restoration program has been established in accordance with the RP. 	Being complied. No land acquisition and displacement.
D.	Indigenous Peoples	
<i>Loan Agreement (LA) SCHEQUE4, Para 10</i>	<p>The Borrower shall ensure that the preparation, design, construction, implementation and operation of the Project, each Subproject and all Project facilities comply with</p> <ul style="list-style-type: none"> a) All applicable laws and regulations of the Borrower relating to indigenous peoples; b) The Indigenous Peoples Safeguards; c) The IPPF; and 	Complied in ongoing 24 sub project that is under implementation at the moment. No major indigenous people's impacts are involved in the activities. IPP action plan is being implemented in Ilam subproject.

S.N.	Loan Covenants	Status of Compliance Date: Up to June 2023
	d) All measures and requirements set forth in the respective IPP, and any corrective or preventative actions set forth in a Safeguards Monitoring Report.	
E. <i>Loan Agreement (LA) SCHEDULE4, Para 11</i>	Human and Financial Resources to Implement Safeguards Requirements The Borrower shall make available necessary budgetary and human resources to fully implement the EMPs, the RPs and the IPPs.	Being complied
F. <i>Loan Agreement (LA) SCHEDULE4, Para 12</i>	Safeguards - Related Provisions in Bidding Documents and Works Contracts The Borrower shall ensure that all bidding documents and contracts for Works contain provisions that require contractors to: a) Comply with the measures relevant to the contractor set forth in the IEE, the EMP, IPP, and the RP (to the extent they concern impacts on affected people during construction), and any corrective or preventative actions set forth in a Safeguards Monitoring Report; b) Make available a budget for all such environmental and social measures; c) Provide the Borrower with a written notice of any unanticipated environmental, resettlement or indigenous peoples risks or impacts that arise during construction, implementation or operation of the Project that were not considered in the IEE, the EMP, the RP or the IPP; d) Adequately record the condition of roads, agricultural land and other Infrastructure prior to starting to transport materials and construction; and e) Fully reinstate pathways, other local infrastructure, and agricultural land to at least their pre-project condition upon the completion of construction.	Being complied; All bidding documents are prepared as per ADB Standard Bidding Document (SBD). Prepared safeguard related (IEE, EMP, RP, IPP & GESI-AP) compliance with the implementation and monitoring during project construction stage.
G <i>Loan Agreement (LA) SCHEDULE4, Para 13</i>	Safeguards Monitoring and Reporting The Borrower shall do the following: a) Submit semi-annual Safeguards Monitoring Reports to ADB and disclose relevant information from such reports to affected persons promptly upon submission; b) If any unanticipated environmental and/or social risks and impacts arise during construction, implementation or operation of the Project that were not considered in the IEE, the EMP, the IPP or the RP, promptly inform ADB of the occurrence of such risks or impacts, with detailed description of the event and proposed corrective action plan; and c) Report any actual or potential breach of compliance with the measures and requirements set forth in the EMP, IPP, or the RP promptly after becoming aware of the breach.	Safeguard issues being incorporated and considered as in reports and followed in implementation stage and submitted along with quarterly, Semi Annual and Annual report.

7. INSTITUTIONAL ARRANGEMENT FOR PROJECT IMPLEMENTATION

43. The project cycle of UWSSP has been divided into three phases: Study and Planning phase, Construction phase, and Operation and Maintenance phase. The study and planning phase includes information dissemination, an application submitted by community, review of the application, public awareness activity, a detailed feasibility study and if feasible, a detailed engineering design, cost estimate and finally concluding a subproject agreement between the WUSC and the project.

44. The second phase involves the construction of water, sanitation, and drainage facilities and the institutional development, training and public awareness activities. The post construction or operation and maintenance phase starts after sub-project completion and when project site office is closed. The post construction activities particularly service delivery thereafter (administrative, technical and financial management) become the responsibility of WUSC.

45. The Project Management and Quality Assurance Consultants (PMQAC) will provide support to the PMO in the following areas. Ensure that the quality of the designs and construction of all water supply and sanitation components implemented under the project are to the required standards; and assist the PMO with the overall planning, implementation and monitoring of the project during all stages of implementation including adherence to all environmental and social safeguards' requirements.

46. Different stakeholders have coordinative role in the implementation of the UWSSP and their involvement in the UWSSP is illustrated in following **Figure 3**.

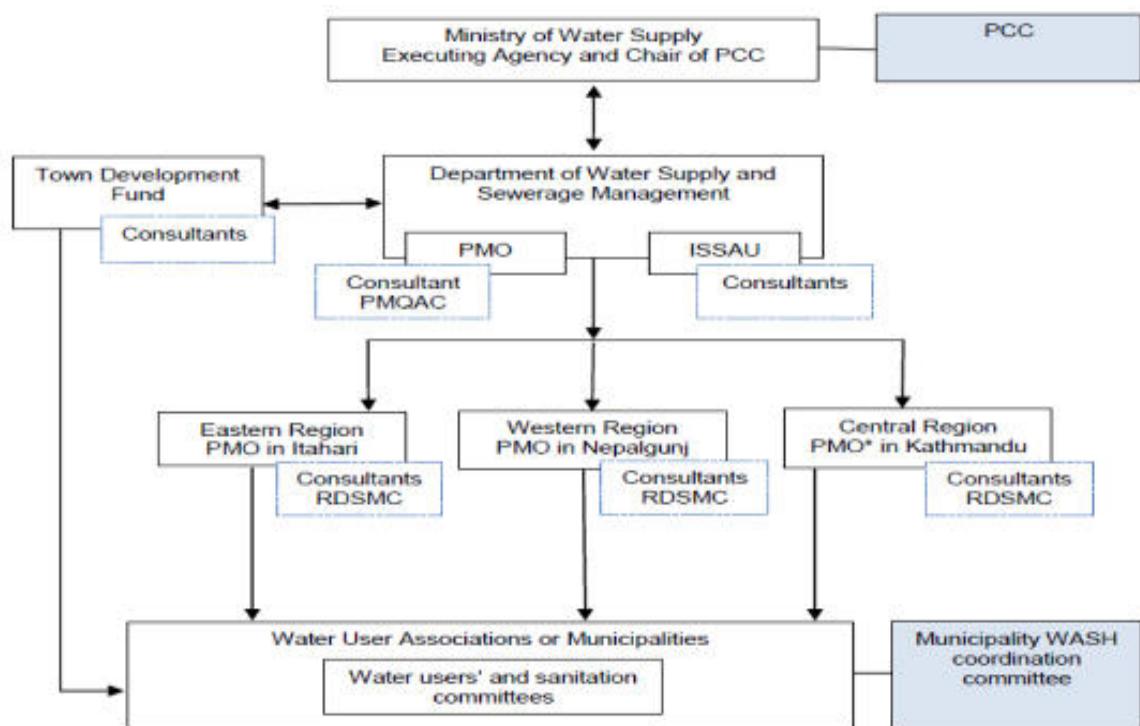

Figure 3: Institutional Arrangement for Project Implementation

*ISSAU = Institutional Support and Service Advisory Unit, PCC = Project Coordination Committee, PMO= project management office, PMQAC = project management and quality assurance consultant, RDSMC = regional design, supervision, and management consultant, WASH = water, sanitation and hygiene. *PMO will act as regional project management office for the central region. Source: Asian Development Bank.*

47. The Regional Project Management Office (RPMO) has the responsibility to implement resettlement activities in each region. The RPMO in this regard, works together with the DSMC's Social Safeguard Specialist during detailed design work. The RPMO continues further consultation with APs during project implementation and solicits views regarding compensation and relocation options. UWSSP/PMQAC/RPMO entrusted with the responsibilities for planning, design, and implementation of the project. The PMQAC Social and environmental specialists are also responsible to ensure compliance with safeguard requirements of the Government and ADB and for day-to-day monitoring of project progress, including the implementation of resettlement provisions in the project and to produce progress report on all aspects concerning planning, implementation and monitoring of the land acquisition and resettlement issues. Regional Design, Supervision and Management Consultant (RDSMC) have been engaged to carry out the detail design, supervision and management of the projects. The RDSMC Social Safeguard Specialist is responsible for carrying out the social impact assessment issues and to closely work with UWSSP/RPMO for safeguard implementation. The UWSSP/RPMO staffs, ICG Engineer, Social Mobilizer and DRSMC—Construction Supervision Engineer, Sub-Engineer, Environment Management Plan Monitor and Social Mobilizers have also engaged to carry out the community mobilization activities and responsible for the implementation safeguard related activities and resettlement plan implementation in field level.

8. FOLLOW UP ACTIONS

- Again, this year the effects of Dengue have been seen in many places in Nepal. Therefore, it is necessary to inform the employees and workers working in the field about the measures to be taken to avoid this. There should also be an effective system for regular monitoring of these growing epidemics.
- Training and awareness to Social Mobiliser supply of required PPE and logistic shall be provided to safeguard desk in each subproject with the help of WUSC.
- Assess the need for an additional awareness program on grievance redress mechanism and carry out the necessary awareness programs among the community people/stakeholders in sub-project implementation locations.
- Expedite the implementation of remaining activities of IPP and allocate sufficient budget.

Table 6: Follow of action for next reporting period

SN	List of Remaining Activities, Issue and Grievances	Action Taken	Recommendation action	Responsibility/ Remarks	Status	
					Active case	Closed case
1	OHT 900 cum construction site issue_Saptakoshi	The project team frequently visited the Saptakoshi municipality and WUSC made interaction with Municipality Mayor and WUSC chairperson for land ownership transfer to WUSC.	land ownership transfers to WUSC within September 16,2023 (Bhadra 30 2080).	PMO/RPMO, WUSC ERDSMC	WUSC made commitment land ownership transfers to WUSC within September 16,2023 (Bhadra 30 2080).	
2	IPP related activities construction of cultural center in Sandhakpur/source area: 1. Construction of Cultural center building.	The project team frequently visited the Ilam municipality and Sandakpur Rural Municipality, Maimajuwa, ward no2 office and made interaction with Rural municipality chairperson, Ilam municipality mayor and local NEFIN member of Ilam distict.		PMO/RPMO, WUSC ERDSMC	1. The team of expert from the consultants PMO/RPMO, and PMQAC has regularly carried out meeting/interactions/consultations with Ilam Municipality Mayor/Sandhakpur Rural Municipality Chairperson/WUSC Ilam/ local representative of NEFIN Ilam district and local of source area or Indigenous community for establishment of cultural center at Maimajuwa. 2. All the team PMO/RPMO/Ilam Municipality Mayor/Rural Municipality Chairman and NEFIN representatives agreed on establishment of the cultural center. However, the suitable place is not yet finalized.	

					<p>3. Continuous follow-up and interaction/dialogue with the indigenous communities were carried out to share the knowledge value of the cultural center to the community people and its significance to the indigenous community.</p> <p>4. Compliance or progress of cultural center establishment to be reported to ADB within next SSMR.</p>

Minutes of Meeting

Minutes of Meetings, Orientation Consultation and Training/Awareness matrix

S.N	Date/ Month	Location	Nos.	Type of Participants	Discussed Issues	Decisions/ Conclusions
Western Region						
Tikapur						
1	03/02/2023	Tikapur Municipality Office	Male-7, Femal-0 Total-7	Municipality, RPMO, Consultants and Contractors	Progress review and problem solving	<p>In the project, the under construction canal/drain Sec-1 T3L1R from chainage 0+346 to 1+195 (location Munuwa road) Tikapur municipality as it is seen that the culvert constructed from is still functional & according to the design done in the project, it can be accommodating the design flow the water, so you can keep the existing culvert in that section as it.</p> <p>In order to match the height of the road, the remaining concrete of the crop should be maintained & the cover of the drain should be constructed in the Tikapur municipality, it was decided to do as per the project.</p>
2	28/04/2023	Consultant's Office	Total-14 (M-1, F-3)	RPMO, Consultants, contractors	Progress of the work Submission of VO	<p>The progress of the project was reviewed, it was decided that 72% of the project work was completed and the remaining work should be completed within stipulated time frame.</p> <p>If it is seen that the quantity of any items of the current contract has been changed, the preliminary VO will be submitted within 1 weeks by Contractor In Tikapur drain (T6L1L section 1), 318m box drain culvert drawing was not clear. After the meeting and discussion, after clarification in the meeting it was decided that contractor will be submitted the proposal to the Team leader with in one week for approval.</p>
3	11/06/2023	Tikapur Municipality Office	Male -11 Female - 2 Total 13	Municipality, RPMO, Consultants and Contractors	Sharing problem associated structures with	<ol style="list-style-type: none"> As it is seen that in the listed places, it is necessary to build the drain on individual land according to the map, it is not possible to build a drain on the private land. <ul style="list-style-type: none"> T20L6 Hattbazar near small irrigation channel (sano kulo) toward north toward private land T22L11 Quantity Business hardware shop north toward private land T22L6 Quantity Business hardware shop north toward private land T3L17 Quantity Business hardware shop north of Irrigation kulo. As the water has accumulated in the specified places and it has not been dried even after repeated requests to the house owner to dry it and there is a risk of damage to the side houses/wall etc. when trying to do light drying work, the related houses owners will be given 1 week to dry it & if the water does not dry even within that period, then the drain will be taken to the second phase, it was decided to build. <p>In addition, it was decided that if there is any damage to the houses, walls & others structure after the construction work is done, the owner of the house/ structure will be responsible.</p>
4	22/01/2023	WUSC Office	Male – 12 Female – 7 Total – 19	Mayor/ D Mayor/Ward chairman & representative/ WUSC/ICG Engineer/ Consultant	Agenda: 1 – Regarding the pipeline expansion Agenda: 2 – Regarding construction of public toilet	<ol style="list-style-type: none"> It was decided to give an appropriate place & side to facilitate the contractor. It was decided to find a suitable place to construct a toilet within the planning area of Bhimdutta Municipality Ward No. 6 &7.
Purnagiri						

1	28/02/2023	WUSC Office	Male – 12 Female – 2 Total – 14	RPMO Engineer/ Team Leader/CMS/ ICG Engineer/ CSE/ EMP/WUSC Chairman/ Contractor	Agenda: 1 – Regarding the project review.	<ul style="list-style-type: none"> -While discussing proposal number 1, the physical progress of this Purnagiri Urban Water Supply and Sanitation (Sector) Project till February 2023 is 11.26 %. -In addition, the Project Manager Shree Ram Lochan Kumar has attended the working site. The work plan has been submitted to the consultant. -The work plan has been reviewed and approved by the consultant. -The contractor expressed his commitment to proceed with the construction work according to the approved action plan.
2	18/03/2023	WUSC Office	Male – 28 Female – 9 Total – 37	ICG engineer/ consultant team/ WUSC chairman/ WUSC members/ different tole coordinator/ water users and contractor	Agenda: 1 – Regarding the pipeline expansion	While discussing on proposal No.1 in the office of the Purnagiri WUSC committee, with the participation of toll chairpersons of Ward No.6 and Ward No. 07, regarding the laying of pipelines, the roads will be paved in the future, the width will be expanded and drains will also be installed. The decision was passed unanimously to lay the entire pipeline within the road area so that the road does not collapse and in other cases the pipeline can be extended beyond the road.
3	22/03/2023	WUSC Office	Male – 12 Female – 5 Total – 17	ICG engineer/ team leader/CMS/co nsultant team/ WUSC chairman/ WUSC members and contractor	Agenda: 1 – Regarding the pipeline expansion	<ol style="list-style-type: none"> According to the decision taken in the meeting held on 2079/12/4, consultants and contractor were requested to lay the pipeline. According to which it will be as per the details. -To extend the pipe from the side of the road according to the road standards. -At present, where the road has been widened and the drain has also been made, the pipe will be buried in the private land outside the drain. -It has been decided that the site will be made available to start the pipeline work from tomorrow 2079/12/9. At first Saraswoti Tole, downward Main Canal (N236 to N252), Barmadev Highway etc. areas will be provided. Also other places will be provided gradually. From Trikond Chok to ward office N83, N84 to N20, N21. It has been seen that the main reason for the lack of progress is that the contractor is not able to provide the necessary resources on time.
Grousing

Today on the day of 2080-2-28, the meeting chaired by Mr. Ramlal dangoura Tharu, the Mayor of Tikapur Municipality. The following person were presents.

Presence

1. Ramlal dangoura Tharu	Mayor of Tikapur Municipality
2. Ramesh Thapa	Chief RPMO
3. Parasmani Bhatta	ICG Engineer
4. Hari Prasad Dhakal	TL, WRDSMC
5. Yamuna Prasad Shah	CMS, WRDSMC
6. Gauri Prasad Sharma	Social Safeguard Expert, WRDSMC
7. Arun Rosyara	CSE, ITECO-UNEC-JV
8. Uday Pokharal	PM, Tundi construction
9. Sita Pal	EMP, ITECO-UNEC-JV
10. Prem Raj Pantha	JE, ITECO-UNEC-JV
11. Sunil Hamal	Computer Operator
12. Sita Khanal	SM, ITECO-UNEC-JV
13. Brijlal Mahoto	Surveyor, Tikapur Municipality

1. As it is seen that in the listed places, it is necessary to build the drain on individual land according to the map, it is not possible to build a drain on the private land.

* T20L6 Hattbazar near sano kulo toward north toward private land

* T22L11 Quantity Business hardware shop north toward private land

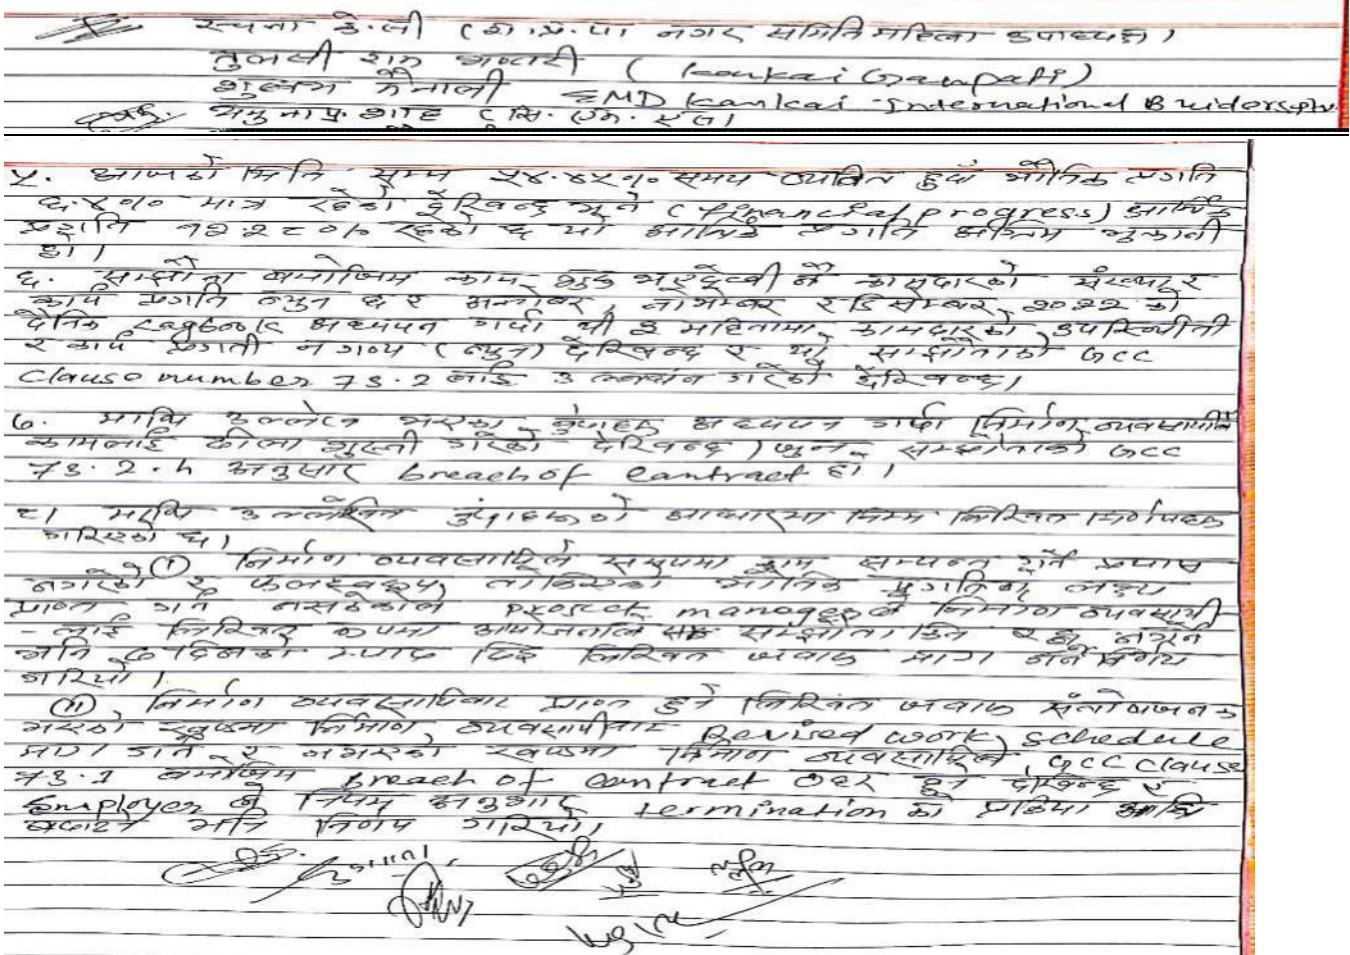

* T22L6 Quantity Business hardware shop north toward private land

*T3L17 Quantity Business hardware shop north of Irrigation kulo.

2. As the water has accumulated in the specified places and it has not been dried even after repeated requests to the house owner to dry it and there is a risk of damage to the side houses/walls etc. when trying to do light drying work, the related houses owners will be given 1 week to dry it & if the water does not dry even within that period, then the drain will be taken to the second phase, it was decided to build. In addition, it was decided that if there is any damage to the houses, walls & others structures after the construction work is done, the owner of the house/ structure will be responsible.

Purnagiri

(Handwritten notes in Nepali script, listing names and roles of team members involved in Purnagiri project, such as RPMO, CSE, ICG, etc.)

1. English Translation

On January 2, 2023 (2079/9/18), the consultation meeting of Purnagiri Water Supply and Sanitation Users' Committee was held under the chairmanship of Mr. Devendraraj Dhungana, WUSC Chairperson and made the following decisions:

Attendees: Total: 30; Male: 22; Female: 8

Agendas and Decisions:-

Agenda: 1 – Regarding the progress review

Decisions:

1. The project agreement was concluded between the Project Management Office, Sanitation, Water and Sewerage Management Department, Ministry of Water Supply and Kankai-Ganpati JV on 7th March 2022. The completion date of this project is 7th September, 2023.
2. Insurance as per GCC clause 58% Rs, 24,16,185.2 has been paid to the contractor as per APG and bank guarantee is due till 24th October 2023.
3. The updated plan of the budget received from the construction council on the date 2079/4/22 is not a work plan according to the provision in clause 1.7.5.1 of the technical specification. It seems that the work plan has not been received even till now when it has been requested on different dates to submit the work plan according to the provision in the contract, which is a Breach of Contract according to GCC Clause 73.2(f). In addition, construction professionals have not yet been able to appoint a project manager as stipulated in the contract.
4. It is clear that Mr. Tulasiram Bhandari, the official representative of the contractor, was absent from the urgent meeting called on 10th December 2022, and he was absent even when the meeting was called on the date that he had written to attend

today's meeting. It is clear that he has no interest in this work. Also, in the meeting held on 2079/09/09, it was decided that the construction company/contractor has been requested to take necessary action according to the prevailing laws of the Government of Nepal.

5. While 54.45% of the time has passes till date, the physical progress is only 6.4% while the financial progress is 12.28%. This financial progress is an advance payment.
6. Since the commencement of the work as per the agreement, the number of workers and work progress is slow and by studying the daily log book of October, November & December 2022, it appears that the number of labor at site and work progress in these three months is very slow and it seems to be in violation of GCC clause 73.2 of the agreement.
7. On perusal of the above mentioned points, it appears that the builder has delayed the work which is "Breach of Contract" as per GCC Clause 73.2 (h) of the contract.
8. The following decisions have been made based on the points mentioned above.
 - i) As the contractor did not try to complete the work on time and as a result could not achieve the target of physical progress, it was decided that the project Manager would ask the contractor in written form within 7 days, why the contract should not be canceled.
 - ii) It was decided that if the written answer received from the contractor is satisfactory, then the revised work schedule will be requested from the contractor and if not, the contractor will be deemed to be in "Breach of Contract" according to Clause No. 73.1 and it was decided that the employer will proceed with the process of termination according to the rules.

On January 30, 2023 (2079/10/16), the consultation meeting of Purnagiri Water Supply and Sanitation Users' Committee was held under the chairmanship of Mr. Devendraraaj Dhungana, WUSC Chairperson and made the following decisions:

Attendees: Total: 15; Male: 12; Female: 3

Agendas and Decisions:-

Agenda: 1 – Regarding the project review

Agenda: 2 – Regarding non-submission of work plan and resource plan.

Decisions:

- While discussing proposal number 1, while reviewing the work progress of this Purnagiri Urban Water supply project so far, 31 Km of the pipe for the construction work has been completed in the project area and although the number of workers has increased in the last two weeks and the work progress has also improved, the progress could not be done according to the latest work schedule at the construction site.
- While discussing proposal number 2, the work plan with resource plan that should be obtained from the contractor of this project has not been received from the consultant after repeatedly correspondence with contractor, so the contractor has made commitment to provide the plan(work plan with resource plan) to the consultant within 2 days as soon as possible.

On April 18, 2023 (2080/01/05), the consultation meeting of Purnagiri Water Supply and Sanitation Users' Committee was held under the chairmanship of Mr. Devendaraj Dhungana, WUSC Chairperson and made the following decisions:

Attendees: Total: 13; Male: 9; Female: 4

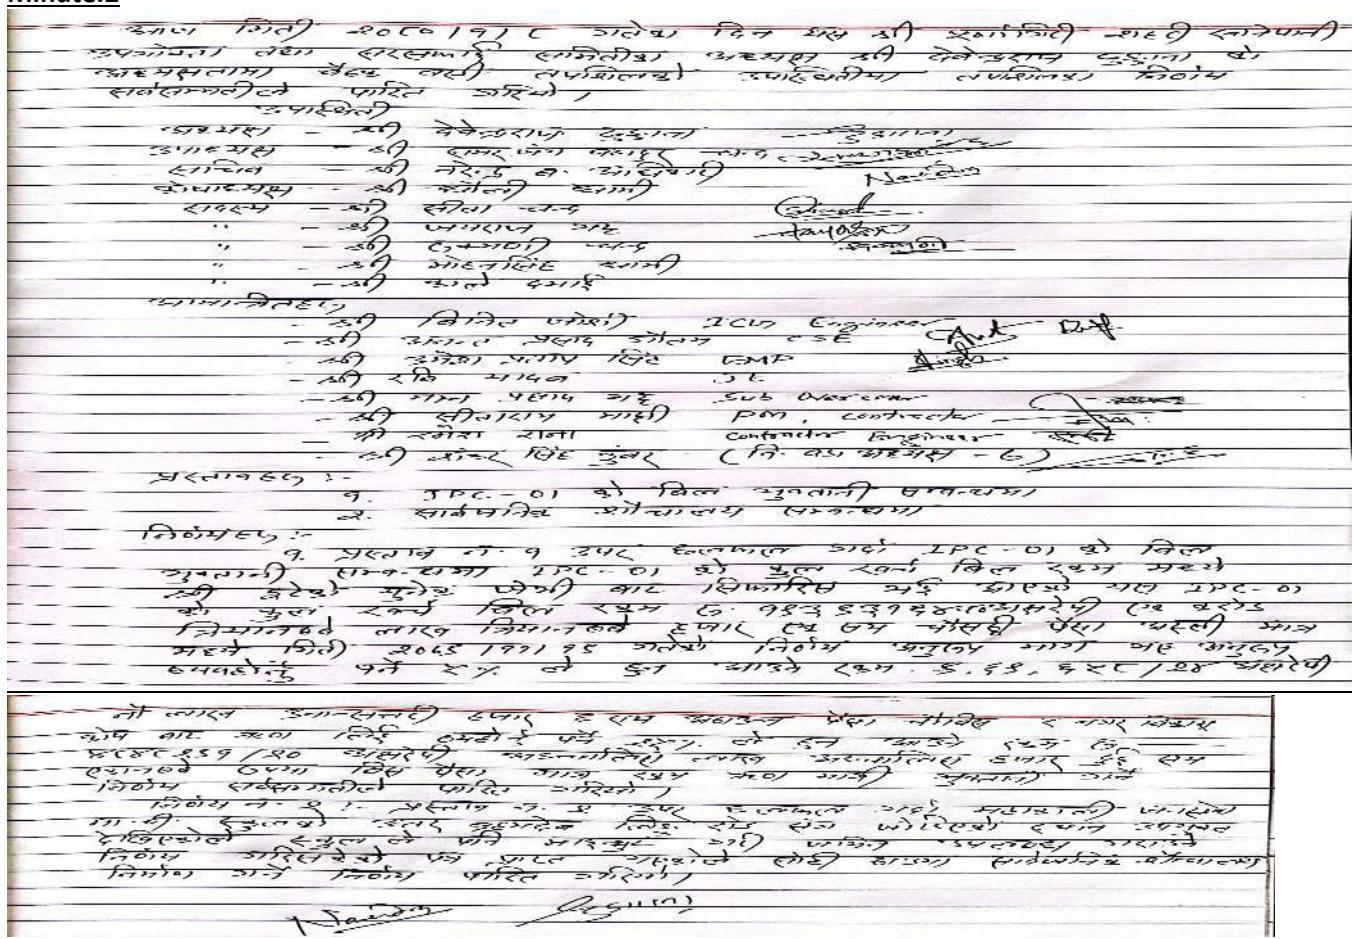

Agendas and Decisions:-

Agenda: 1 – Regarding the project progress review.

Decisions:

- While discussing proposal No.1 it was reviewed with the commitment of the contractor to advance the work progress as soon as possible and complete the project within the construction period, as there is only 13.16% of the total progress of 54.53% in March 2023 of the Purnagiri Urban Water Supply and sanitation (Sector) Project in the last month March 2023 and 13 months have passed.

Minute.2

Minute 2: English Translation

On April 21, 2023 (2080/01/08), the consultation meeting of Purnagiri Water Supply and Sanitation Users' Committee was held under the chairmanship of Mr. Devendaraj Dhungana, WUSC Chairperson and made the following decisions:

Attendees: Total: 13; Male: 11; Female: 2

Agendas and Decisions:-

Agenda: 1 – Regarding the IPC-1.

Agenda: 2 – Regarding the public toilet

Decisions:

- While discussing the proposal number 1, regarding the bill payment of IPC-1, out of the IPC-1 total expense bill amount recommended by ITECO-UNEC JV, the total expense bill amount of this IPC-1 is Rs. 1,93,93,164.80 (In words: One Crore Ninety Three Lakh Ninety Three Thousand One Hundred Sixty Four rupees Eighty Paisa only). According to the decision dated 2069/11/19, 5% of the amount to be paid as per demand is Rs. 9,69,658.24 (In words: Nine Lakh Sixty Nine Thousand Six Hundred Fifty Eight Rupees Twenty Four Paisa Only) and 25% of the amount to be borne by taking a loan from the Municipal Development Fund is Rs. 48,48,291.20 (In words: Forty Eighty Lakh Forty Eight Thousand Two Hundred Ninety One Rupees Twenty Paisa Only). It was decided to pay only the loan amount.
- While discussing the decision number 2, the location of school connected with North Barmadev link road in Mahakali Janasewa High School was found to be suitable, and as the school also decided to provide land by meeting minute, a decision was passed to construct a public toilet at the same place.

Minute 3: English Translation

On April 28, 2023 (2080/01/15), the consultation meeting of Purnagiri Water Supply and Sanitation Users' Committee was held under the chairmanship of Mr. Devendaraj Dhungana, WUSC Chairperson and made the following decisions:

Attendees: Total: 19; Male: 16; Female: 3

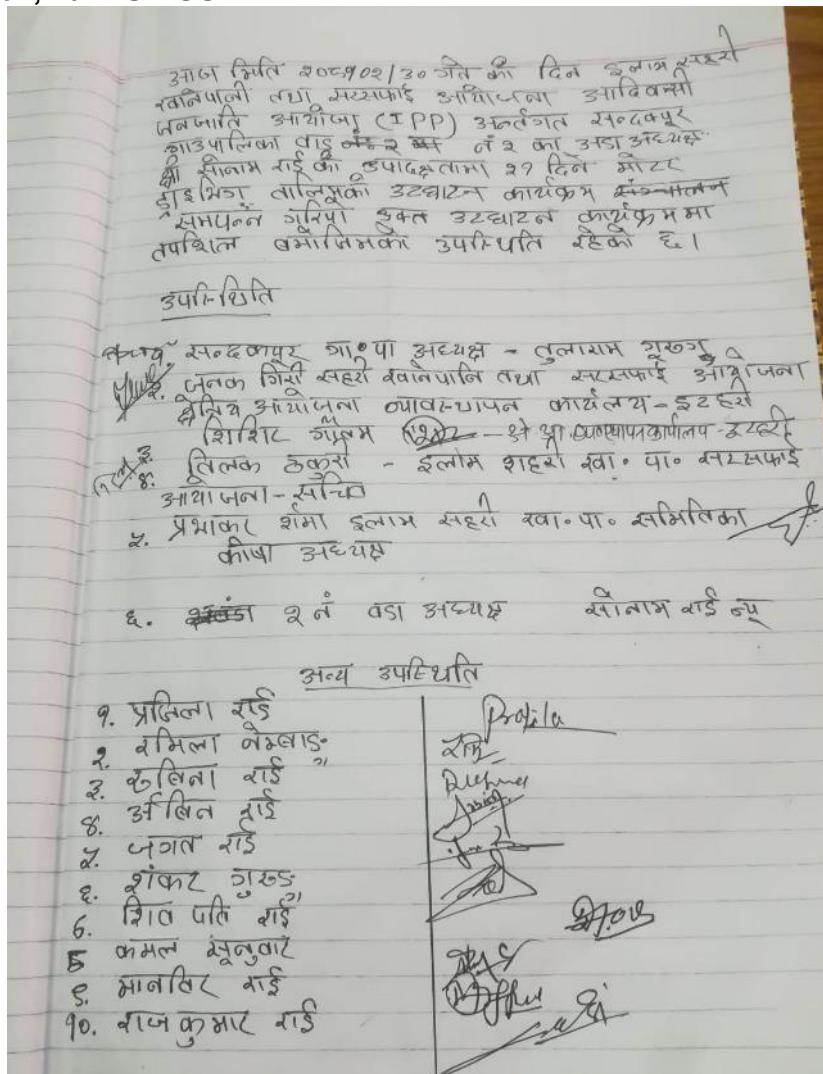

Agendas and Decisions:- Agenda: 1 – Regarding the project progress review

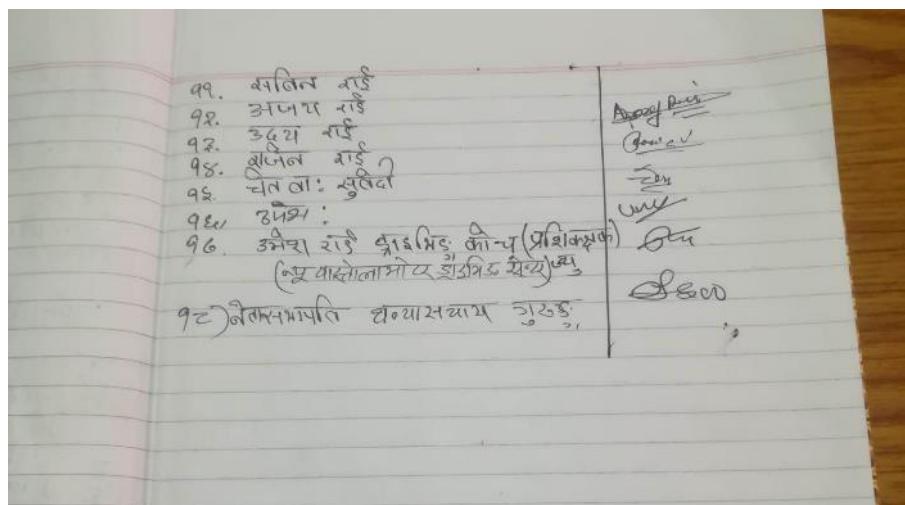

Decisions:

While discussing proposal no. 1 the points of details were discussed.

- 1) The construction work of OHT has been completed up to the rebar work of 4th bracing and the rest of the work has been stopped due to the lack of cement and MS bars.
- 2) Out of four Deep Tube Well(DTW), only 90% of the construction of DTW-1 has been completed but draw down test and discharge measurement was left so far and the work has been stopped as the boring pipe of the remaining three is not available at construction site.
- 3) Pipeline- 7.6 km of pipe line work has been completed and PE pipe 33 km and DI pipe 0.7 km are available within the project area and the couplers and inter connecting fittings as per the design of the pipe size are not at the workplace.
- 4) While discussing the above mentioned points, the contractors expressed his commitment to provide pipe fittings for the pipeline, boring pipe for DTW, OHT office building guard house public toilet within 18th Baishak 2080 i.e Monday and proceed with the construction work.

Jhumka Photo

 A photograph of a wooden A-frame display board standing in a dirt area. The board has a white sign with the text "सेफ्टी अनिवार्य है।" (Safety is non-negotiable) at the top. Below this, there is a section titled "WORK SAFETY" featuring icons of various safety gear: a hard hat, a vest, a boot, a helmet, and a person wearing a hard hat and vest.	 A group photo of people in a room with blue walls. In the center, several young students in school uniforms are holding certificates. They are surrounded by adults, including a woman in a white lab coat and a man in a suit. There is a television on a stand in the background.
Safety awareness display board Jhumka January 2023	Award distribution program for student on world environment day Jhumka in WUSC office June 2023

 A photograph showing a dirt road with a large trench dug into it for pipeline work. A long wooden plank has been laid across the trench to provide a safe path for people to walk over.	 A photograph of a wooden A-frame information board standing on a dirt road. The board has a white sign with the text "सावधान" (Caution) at the top, followed by "पाइपलाइन विस्तार करने हुदेहा।" (Pipeline extension work in progress). Below this, there is smaller text in Hindi: "पाइपलाइन विस्तार करने का काम जल्दी समाप्त हो जाएगा।" (The work of pipeline extension will be completed soon).
